

Around Reagents

talk with
Arthur Duff
Serena Fineschi
Silvia Infranco
and the curator Daniele Capra

Saturday 14th September, 5 pm
Venice, Ospedaletto Con/temporaneo (Complesso dell'Ospedaletto)

The rooms of the Farmacia at the Complesso dell'Ospedaletto will host the talk **Around Reagents**, in which three of the artists part of the exhibition – Arthur Duff, Serena Fineschi and Silvia Infranco – will discuss with the curator Daniele Capra about the methods of their research and the reflection that led to the realization of the project focused on the dynamics of action-reaction with respect to the environmental, cultural and perceptive variables.

Reagents puts together the works by eight artists (Arthur Duff, Serena Fineschi, Silvia Infranco, Túlio Pinto, Fabrizio Prevedello, Quayola, Verónica Vázquez and Marco Maria Zanin), whose work can be seen as a device generated by a process of opposition to stimuli, to physical and mental pressures, which is acted and executed by the context. On view there are about fifteen two-dimensional and sculptural works, which range from a processual nature to a more evident conceptual matrix.

Reagents has been realized with the fundamental support of Marignana Arte.

After the event you will be able to attend the opening reception of the group show **Trauma** and the project room dedicated to Silvia Infranco **Tempus defluit, imago latet (because I don't want to forget)** hosted by Marignana Arte gallery.
